

Due by March 31, 2014

Notice: Pursuant to s. NR 216.07(8), Wis. Adm. Code, an owner or operator of a Municipal Separate Storm Sewer System (MS4) is required to submit an annual report to the Department of Natural Resources (DNR) by March 31 of each year to report on activities for the previous calendar year. This form is being provided by the DNR for the user's convenience. Personal information collected will be used for administrative purposes and may be provided to the extent required by Wisconsin's Open Records Law [ss. 19.31-19.39, Wis. Stats.].

This form is for reporting on activities undertaken in calendar year 2013.

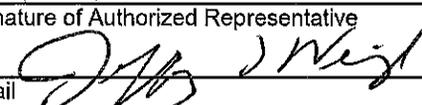

Instructions: Complete each section of the form that follows. If additional space is needed to respond to a question, attach additional pages. Provide descriptions that explain the program actions taken to comply with the general permit. Complete and submit the annual report by March 31, 2014, to the appropriate address indicated on the last page of this form.

SECTION I. Municipal Information			
Name of Municipality		Facility ID No. (FIN)	
City of Pewaukee		30726	
Mailing Address	City	State	ZIP Code
W240N3065 Pewaukee Road	Pewaukee	WI	53072
County(s) in which Municipality is located	Municipality Type: (select one)		
Waukesha	<input type="radio"/> County <input checked="" type="radio"/> City <input type="radio"/> Village <input type="radio"/> Town <input type="radio"/> Other (specify)		

SECTION II. Municipal Contact Information			
Name of Municipal Contact Person		Title	
Richard J. Wirtz, P.E., CFM		Civil Engineer	
Mailing Address	City	State	ZIP Code
W240N3065 Pewaukee Road	Pewaukee	WI	53072
Email	Phone Number (include area code)	Fax Number (include area code)	
wirtz@pewaukee.wi.us	(262) 691-0804	(262) 691-5729	

SECTION III. Certification

I hereby certify that I am an authorized representative of the municipality covered under MS4 General Permit No. WI-S050075-1 for which this annual report is being submitted and that the information contained in this document and all attachments were gathered and prepared under my direction or supervision. Based on my inquiry of the person or persons under my direction or supervision involved in the preparation of this document, to the best of my knowledge, the information is true, accurate, and complete. I further certify that the municipality's governing body or delegated representatives have reviewed or been apprised of the contents of this annual report. I understand that Wisconsin law provides severe penalties for submitting false information.

Authorized Representative Printed Name	Authorized Representative Title		
Jeffrey Weigel, P.E.	Director of Public Works		
Signature of Authorized Representative	Date		
	3-27-14		
Email	Phone Number (include area code)	Fax Number (include area code)	
weigel@pewaukee.wi.us	(262) 691-0804	(262) 691-5729	

SECTION IV. General Information

a. Describe what efforts the municipality has undertaken to invite the municipal governing body, interest groups, and the general public to review and comment on the annual report.

The annual report is presented to the Public Works Committee each May for discussion and comment. There was no discussion regarding the report. No comments from the public have been reported or received regarding the report. The 2013 annual report will be posted on the City's updated website.

b. Describe how elected and municipal officials and appropriate staff have been kept apprised of the municipal storm water discharge permit and its requirements.

City staff continue to work with our elected officials regarding the City's municipal storm water discharge permit through presentation of the annual report; discussion regarding the function of the City's storm water utility; budget hearings; discussion regarding upcoming changes to the City's municipal discharge permit; potential changes to City ordinances; and discussions related to components included in capital improvement projects that impact storm water discharges. City staff answer questions from the public, elected officials and other internal staff as needed regarding: permit requirements; effects on development and permitting; impacts on storm water utility fees and credits; long term planning; and enforcement of erosion control ordinances.

SECTION IV. General Information (continued)

c. Has the municipality prepared its own municipal-wide storm water management plan? Yes No

If yes, title and date of storm water management plan:

City of Pewaukee Storm Water Management Plan, June 1999

City of Pewaukee Storm Water Management Plan Update, June 2007

d. Has the municipality entered into a written agreement with another municipality or a contract with another entity to perform one or more of the conditions of the general permit as provided under Section 2.10 of the general permit? Yes No

If yes, describe these cooperative efforts:

Waukesha County and the Upper Fox River Partnership Group for the information and education components of the City's MS 4 permit.

e. Does the municipality have an internet website? Yes No

If yes, provide web address:

www.cityofpewaukee.us

If the municipality has an internet website, is there current information about or links provided to the MS4 general permit and/or the municipality's storm water management program?

Yes No

If yes, provide web address:

SECTION V. Permit Conditions

a. Minimum Control Measures: For each of the permit conditions listed below, provide a description of the status of implementation of program elements, the status of meeting measurable goals, and compliance with permit schedule in section 3 of the MS4 general permit. Provide an evaluation of program compliance with the general permit, the appropriateness of identified best management practices, and progress towards achieving identified measurable goals. Be specific in describing the actions that have been taken during the reporting year to implement each permit condition and whether measurable goals have been met, including any data collected to document a measurable goal. Also, explain the reasons for any variations from the compliance schedule in the MS4 general permit.

- Public Education and Outreach

See attached Exhibit A for a summary of the County Contracted program.

- Public Involvement and Participation

At the onset of the City's storm water utility there was a tremendous amount of public outreach regarding the need for the utility to resolve issues of flooding, system maintenance, water quality and compliance with the City's permit. This public outreach has dwindled over time as acceptance of the storm water utility grows. Although questions do arise, these are less numerous and usually occur around billing time. Today the greatest amount of outreach occurs during the plan review process and during erosion control inspections. Contractors, developers and developer's engineers are the primary focus of these outreach/education activities.

- Illicit Discharge Detection and Elimination

Two incidents of illicit discharges were brought to the City's attention in 2013. Both incidents appeared to be discharges of thinset mortar to the storm sewer by workmen at different locations in the City. One incident resulted in contact with the perpetrator and education of the individuals of the seriousness of the violation. The perpetrator of the other incident is still unknown. No downstream impacts were apparent in either incident.

- Construction Site Pollutant Control

The Building Inspection Department performed 571 erosion control/bond inspections in 2013. A total of 18 notices were sent to have repairs completed. The Public Works Department conducted 309 construction site erosion control inspections in 2013. A total of 8 notices of Non-Compliance and 3 Notices of Violation were issued to sites with erosion control deficiencies. One site was recommended for fines totalling \$1000.00 for violation of the City's erosion control ordinance.

SECTION V. Permit Conditions (continued)

• **Post-Construction Storm Water Management**

The City received 3 post construction site storm water management reports in 2013. Inspection of post construction site BMP's still lags due to aggressive enforcement of the City's construction site erosion control ordinance and post construction site standards during plan development. 2014 goals will require inspection of at least 10 post 2004 development sites for compliance.

• **Pollution Prevention**

The City performed catch basin/storm inlet inspections and cleanings in accordance with our plan. An estimated 6 tons of material was removed as a result of the cleaning. Approximately 1454 miles of roadway was swept in 2013 netting over 47 tons of solids captured. Sediments captured under both programs were disposed of properly. Ditch cleaning performed by the City netted 144 tons of solids removed. Maintenance was performed on approximately 802 lineal feet of ditches.

Leaves and grass clippings are accepted at City Hall and then taken to the County for recycling. In 2013 approximately 639 tons of yard waste was recycled at the County site.

The City's winter management program for 2013 consisted of a combination of plowing, pre-wetting with salt brine and salt applications. There were 46 events in 2013 which included the application of 20,704 gallons of salt brine and 4500 tons of salt.

The Park and Recreation Department continues to follow their Turf Management Program for any fertilizers placed. In addition, the City has a phosphorous ban in place on all established lawns unless testing shows it is required.

b. **Storm Water Quality Management:** Has the municipality completed a pollutant-loading analysis to assess compliance with the 20% TSS reduction developed urban area performance standard? Yes No

If yes, provide the following: Model used WinSlamm Version 9.4 Reduction (%) 59

If no, include a description of any actions the municipality has undertaken during 2013 to help achieve the 20% standard.

Has the municipality completed an evaluation of all municipal owned or operated structural flood control facilities to determine the feasibility of retrofitting to increase TSS removal? Yes No

If yes, describe:

The City reviewed all municipally and privately owned facilities for retrofitting to meet the 40 percent removal requirement under the water quality modeling update in 2011. The City currently achieves a 31 percent reduction in TSS loading from roadside swales and 28 percent reduction in TSS loading from existing wet ponds.

c. **Best Management Practices Maintenance:** Does the municipality have a maintenance program for installed storm water best management practices? Yes No

If yes, describe the maintenance program and any maintenance activities that have occurred for best management practices in 2013. If available, attach any additional information on the maintenance program.

d. **Storm Sewer System Map:** Describe any changes or updates to the storm sewer system map made in the reporting year. Provide an updated map if any changes occurred during the reporting year.

Two subdivisions began development in 2013. The changes to the storm sewer system map will be incorporated into a new map in 2014. A City wide inventory of the storm sewer system will also be completed in 2014.

SECTION VI. Fiscal Analysis

a. Provide a fiscal analysis that includes the annual expenditures for 2013, and the budget for 2013 and 2014. A table to document fiscal information is provided on page 6.

See Exhibits B & C.

SECTION VI. Fiscal Analysis (continued)

b. What financing/fiscal strategy has the municipality implemented to finance the requirements of the general permit?

- Storm water utility General fund Other _____

c. Are adequate revenues being generated to implement your storm water management program to meet the permit requirements? Yes No

Please provide a brief summary of your financing/fiscal strategy and any additional information that will assist the Department in understanding how storm water management funds are being generated to implement and administer your storm water management program.

The storm water utility was established to provide a consistent funding stream to address storm water deficiencies in terms of quantity, quality, maintenance and permit compliance components. Borrowing for capital improvement projects may occur when utility funds are not sufficient.

SECTION VII. Inspections and Enforcement Actions

Note: If an ordinance listed below has previously been submitted and has not been amended since that time, a copy does not need to be submitted again. If the ordinance was previously submitted, indicate such in the space provided.

a. As of the date of this annual report, has the municipality adopted a construction site pollutant control ordinance in accordance with subsection 2.4.1 of the general permit? Yes No If yes, attach copy or provide web link to ordinance:

<http://wi-pewaukee.civicplus.com/documentcenter/view/84>

b. As of the date of this annual report, has the municipality adopted a post-construction storm water management ordinance in accordance with subsection 2.5.1 of the general permit? Yes No If yes, attach copy or provide web link to ordinance:

same as above

c. As of the date of this annual report, has the municipality adopted an illicit discharge detection and elimination ordinance in accordance with subsection 2.3.1 of the general permit? Yes No If yes, attach copy or provide web link to ordinance:

same as above

d. As of the date of this annual report, has the municipality adopted any other ordinances it has deemed necessary to implement a program under the general permit (e.g., pet waste ordinance, leaf management/yard waste ordinance, parking restrictions for street cleaning, etc.)? Yes No If yes, attach copy or provide web link to ordinance:

See attached list in Exhibit D

e. Provide a summary of available information on the number and nature of inspections and enforcement actions conducted during the reporting period to ensure compliance with the ordinances described in a. to d. above.

The Building Inspection Department performed 571 erosion control/bond inspections in 2013. A total of 18 notices were sent to have repairs completed. The Public Works Department conducted 309 construction site erosion control inspections in 2013. A total of 8 notices of Non-Compliance and 3 Notices of Violation were issued to sites with erosion control deficiencies. One site was recommended for fines totalling \$1000.00 for violation of the City's erosion control ordinance.

SECTION VIII. Water Quality Concerns

a. Does any part of the MS4 discharge to an outstanding resource water (ORW) or exceptional resource water (ERW) listed under s. NR 102.10 or 102.11, Wis. Adm. Code? (A list of ORWs and ERWs may be found on the Department's Internet site at: <http://dnr.wi.gov/topic/SurfaceWater/orwerw.html>) Yes No If yes, list:

b. Does any part of the MS4 discharge to an impaired waterbody listed in accordance with section 303(d)(1) of the federal Clean Water Act, 33 USC § 1313(d)(1)(C)? (A list of the most current Wisconsin impaired waterbodies may be found on the Department's Internet site at: <http://dnr.wi.gov/water/impairedsearch.aspx?status=303d>) Yes No If yes, complete the following:

• Impaired waterbody to which the MS4 discharges:

Spring Creek, Un-named Tributary to Spring Creek and the Fox River.

SECTION VIII. Water Quality Concerns (continued)

- Description of actions municipality has taken to comply with section 1.5.2 of the MS4 general permit for discharges of pollutant(s) of concern to an impaired waterbody:

The City has enacted ordinances which address phosphorous in fertilizers, construction site erosion control and post construction site storm water management. The City will look for opportunities to improve the water quality of its storm water runoff to these waterways as projects develop and are undertaken. Future controls necessary to comply with the establishment of TMDL's and WLA's for those waterways will be addressed at such time as they are established.

- c. Identify any known water quality improvements in the receiving water to which the MS4 discharges during the reporting period.

The City is unaware of any known water quality improvements in the 303(d) waters at this time.

- d. Identify any known water quality degradation in the receiving water to which the MS4 discharges during the reporting period and what actions are being taken to improve the water quality in the receiving water.

The City is unaware of any known water quality degradation in the 303(d) waters at this time.

SECTION IX. Proposed Program Changes

Describe any proposed changes to the storm water management program being contemplated by the municipality for 2014 and the schedule for implementing those changes. Proposed program changes must be consistent with the requirements of the general permit.

The City is not planning any program changes at this time.

Fiscal Analysis Table. Complete the fiscal analysis table provided below.

2013 Activity Summary Report

Waukesha County Storm Water Education Program

As part of the agreements Waukesha County has with 25 participating communities, and as required in our storm water discharge permits from DNR, an annual report of storm water education activities is required. This report represents a summary of the activities Waukesha County has been involved with during 2013, sorted by the target audience. Some of these numbers are reported only thru October. It is noted in the document when that occurs.

Target Audience: Contractors, Developers, Consultants and Municipal officials

- Held annual storm water workshop in April, focused on what we have learned in 20 years. Workshop was filled with 95 people and received very positive ratings in evaluations.
- Presented to about 25 people at MBA workshop.
- Presented to 1 municipal board meeting with 25 in attendance with information on the storm water program as well as recycling updates.
- Had article published in Wisconsin Counties magazine about basement flooding issues in Waukesha County and our approach to the problem.

Target Audience: General Public

- Two groups and two individuals for over 30 people participated to stencil storm drains.
- Produced and released 8 different news articles or ads on various topics such as rain gardens, stream monitoring, rain barrels and water conservation.
- Distributed over 60,000 tax inserts and over 100,000 newsletters with recycling and storm water information
- Presented hands-on programs on storm water runoff and pollution prevention actions to over 970 county residents at 19 different events/locations. (Compared to 7 events and 330 people in 2012)
- Toured the display boards to 34 different community events/locations with an estimated audience of over 17,000 people. The display covers basic storm drain and runoff information as well as specific information on rain gardens, rain barrels, shoreland restoration, pet waste, car washing, fertilizer, chemical use and more.
- Gave 5 presentations on rain gardens and rain barrels to 108 people.
- Sold 80 rain barrels in promotional 1 day sale.
- Sold and distributed 8,000 rain garden plants to 40 people through the Graham Martin Foundation grant program. (up from 2000 plants the previous year)
- Provided equipment and maintained 37 monitoring sites throughout the county. Of these, 27 sites were monitored at level 1 and 10 sites were monitored at level 2. Sixteen new volunteers were trained this year and a waiting list is established for 2014.
- Taught 10 yard care/composting classes to 105 people.

- Sold over 130 compost bins through special sales.
- Composted over 7060 tons of community yard waste at the Waukesha County Yard Waste Composting site in the Town of Genesee.
- Collected over 215,500 pounds of household and agricultural hazardous waste from 4 permanent county collection points and several seasonal sites with a total of over 4700 participants.
- Taught 5 Green Cleaning classes to 222 people.

Teachers and Students

- Trained 19 local teachers through a week-long Wisconsin Education Innovations Summer Academy course. Training included soils and erosion, natural resources, composting, water pollution, watershed management and groundwater protection.
- Trained 10 teachers/naturalists in Project WET (Water Education for Teachers), a hands-on supplement of water related educational activities.
- Presented at 20 schools to over 1400 students information on runoff pollution and how to prevent it. (compared to 11 schools and 800 students in 2012)
- Provided field experience in water testing for 8 schools and over 660 students.
- Funded four water projects through the Green Schools program. Through this program, the county offers technical and financial assistance in recycling, waste reduction, water conservation and water pollution control activities. Projects included a rain garden at Merton Elementary and St. Mary's in Waukesha, a rain barrel at Parklawn Elementary in Oconomowoc and setting up St. John's Military Academy to do bacteria testing in local rivers.
